

## White Paper

### Supported Operating Systems

FileDirector is a Microsoft Windows based solution. The server is available for 32 and 64bit operating systems. IPv6 is supported. The following operating systems are recommended:

#### Server

Microsoft Windows Server 2008 Product family

Microsoft Windows Server 2012 Product family

Microsoft Windows Vista

Microsoft Windows 7

Microsoft Windows 8

Microsoft Windows 8.1

Microsoft Windows 10

*Notes:*

*Windows Vista, Windows 7, 8 and Windows 10 are only recommended for evaluation environments.*

#### Client

Microsoft Windows Vista

Microsoft Windows 7

Microsoft Windows 8

Microsoft Windows 8.1

Microsoft Windows 10

*Notes:*

*Microsoft support for Windows XP ceased in April 2014. It is recommended that installations still using Windows XP are upgraded to Windows 7, 8 or 10.*

*For all listed systems, Microsoft Internet Explorer 7 or higher and Microsoft Windows Installer 3.0 or higher is also required.*

*OfficeLink supports MS Office versions from 2007.*

## Database

FileDirector requires a SQL database server. The following database systems are supported. Where appropriate the latest service packs have to be installed.

## Microsoft

SQL Server 2005 Editions  
SQL Server 2008 Editions  
SQL Server 2012 Editions  
SQL Server 2014 Editions

## Oracle

Oracle9i Editions  
Oracle10g Editions  
Oracle11g Editions

*Notes:*

*Dedicated database servers will normally result in improved performance.*

*Before the installation of FileDirector you must have all database components such as the Oracle database with full text installed, as it is required to configure the databases.*
