LIMITED WARRANTY AND DISCLAIMER OF INDEMNITY

Limited Warranty. The Software and documentation is provided "as is" without warranty of any kind, either express or implied, including, but not limited to implied warranties of merchantability and fitness for a particular purpose. The entire risk as to quality and performance of the Software and documentations is with you. Should the Software prove defective you (and not Spielberg, Spielberg's affiliates, their distributors or dealers) assume the entire cost of all necessary servicing, repair or correction. Some states or jurisdictions do not allow the exclusion of implied warranties, so the above exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary according to state or jurisdiction.

Spielberg, Spielberg's affiliates, their distributors and dealers do not warrant that the functions contained in the Software will meet your requirements or that the operation of the Software will meet your requirements or that the operation of the Software will be uninterrupted or error free.

However, Spielberg or Spielberg's affiliates warrants a compact disc or diskette on which the Software is stored to be free from defects in materials and workmanship under normal use for a period of ninety (90) days from the date you purchased the same, as evidenced by a receipt or otherwise. Some states or jurisdictions do not allow limitations on duration of an implied warranty, so the above limitation may not apply to you.

CUSTOMER REMEDIES

Spielberg's entire liability and your exclusive remedy shall be the replacement of the Compact Disc and/or Diskette not meeting the LIMITED WARRANTY and which is returned to Spielberg or Spielberg's marketing affiliate, Spielberg Solutions Limited, with a copy of your receipt or otherwise. The LIMITED WARRANTY is void if failure of the Compact Disc has resulted from accident, abuse or misapplication of the software.

No liability for consequential damages. In no event shall Spielberg, or Spielberg's affiliates, their distributors or dealers be liable for any damages whatsoever (including without limitation, direct or indirect damages for personal injury, loss of business profits, business interruption, loss of business information, or other consequential or incidental damages) arising out of the software, the use thereof or inability to use the software even if Spielberg, Spielberg's affiliates, their distributors or dealers has been advised of the possibility of such damages. Some states or jurisdictions do not allow the exclusion or limitation of liability for consequential or incidental damages, so the above limitation may not apply to you.

Disclaimer of indemnity. Spielberg, Spielberg's affiliates, their distributors and dealers shall have no obligation to indemnify you against any claim or suit brought to you by a third party alleging that the Software or the use thereof infringes any intellectual property of such third party.

TERM

This agreement is effective upon the installation of FileDirector Server and Client and remains in effect until terminated. You may terminate this agreement by destroying the Software and any copy thereof. This agreement will also terminate if you fail to comply with any of the terms of this agreement. In addition to Spielberg enforcing its legal rights, you must then promptly destroy the Software and any copy thereof.

ACKNOWLEDGEMENT

By selecting the 'Yes, I accept the agreement' option during the software installation process, you acknowledge that you have read this agreement, understand it and agree to be bound by its terms and conditions. You further agree that this agreement is the complete and exclusive statement of agreement between you and Spielberg concerning the subject matter hereof, which supersedes any proposals or prior agreements, oral or written, and any other communication between you and Spielberg relating to the subject matter hereof. No amendment to this agreement shall be effective unless signed by a duly authorised representative of Spielberg.

Should you have any questions concerning this agreement, or if you desire to contact Spielberg for any reason, please write to your authorised supplier requesting that they pass your correspondence to Spielberg Solutions GmbH.

Windows Server Manager

After installing Windows Server you must add in Windows Server Manager the IIS role and the .NET Framework 3.5 and 4.5 features.

Please ensure that the following task has been done before you continue:

The Administrator account has a strong password.

Network settings, such as static IP address, are configured.

The latest security updates from Windows Updates are installed.

We strongly recommend checking for further Microsoft Updates after adding the role and features mentioned below.

Installation of IIS role and .NET Framework

The FileDirector server requires the .NET Framework Version 4.0. On the server hosting FileDirector, IIS must be installed BEFORE the .NET framework. If this is not done, the .NET Framework should be removed from the system and reinstalled. Just reinstalling the Framework will not work.

Installation via DISM command

To install or uninstall ASP.NET 4.5 using DISM on Windows Server 2012 and Windows Server 2012R2, use the following command line in an administrative command prompt:

dism /online /enable-feature /featurename:IIS-ASPNET45

Installation via Windows Server Manager

Using the Server Manager for installing Web Server role (IIS) and .NET feature, select *Add roles and features* in Server Manager.

Now you are guided step by step by the *Add Roles and Features Wizard*.

After selecting the server you want to run FileDirector on from the server pool shown, you add the server role *Web Server (IIS)* from the list and a popup windows asks you to add the required features, *Management Tools (IIS Management Console)*, for Web Server IIS.

The next step in *Add Roles and Feature Wizard* is *Features*. Here you select *.NET Framework 3.5 Features* and *.NET Framework 4.5 Features* inclusive *ASP.NET 4.5*.

The options to be selected from *Web Server Role (IIS) - Role Services* list are in *Security* section *Basic Authentication*, *Windows Authentication*, in *Application Development* section *.NET Extensibility 4.5*, *ASP.NET 4.5*, *CGI*, *ISAPI Extensions* and *ISAPI Filters* and in *Management Tools* section the *IIS6 Management Compatibility* with *IIS6 Metabase Compatibility* and *IIS6 Management Console*.
